

Intergraph to participate at the Government CIO Summit 2010, hosted by marcus evans summits

13th January 2010

marcus evans summits, is pleased to announce **Intergraph** as an esteemed sponsor at the **Government CIO Summit**, on 1-3 February, taking place at the prestigious RACV Royal Pines Resort, Gold Coast, Queensland, Australia.

Intergraph Security, Government & Infrastructure (SG&I) is a leading, global provider of geospatially powered solutions to the defense and intelligence, public safety, government, transportation, photogrammetry, utilities and communications industries. Clients rely on Intergraph solutions to organise vast amounts of complex data into understandable visual representations. Through Intergraph software, clients make better and faster operational decisions vital to the safety and well-being of millions of people around the world each and every day.

Government IT leaders will play a vital role in maximising resources to expedite the goals of the government effectively yet cost-effectively. A strong commitment towards new and improved strategic processes is being advocated in order to ensure long-term sustainable growth and innovation. The CIO needs to facilitate this transition towards enhanced IT systems as existing data environments coordinate their interfaces to synchronize with strategic IT personnel and other bureaucratic agencies to achieve optimal resource consumption.

The current economic climate poses remarkable challenges for Government CIOs as an advent of new technology emerges without clear methods of implementation. Having the responsibility of increasing productivity, Government CIOs of today will need to lay down the foundation to ensure a positive return of investment. In essence, this new generation of Government CIOs will be expected to steer productivity and create sustainable business practices.

The **Government CIO Summit 2010** utilizes the experience of others in a condensed format to enrich the understanding of participants. The keynote presentations provide the benchmark for practical application and the summit provides the opportunity to network with senior level practitioners over a period of three days.

marcus evans Summits (www.marcusevans.com), produces high level business platforms for the world's leading decision-makers. These dynamic and innovative forums initiate and develop business relationships one- to- one between director and C level practitioners from the world's most influential organisations with leading product and service suppliers. **marcus evans** Summits' guarantee an exclusive format which enables participants to achieve the maximum amount of business and knowledge interaction over a three day event in a stimulating environment.

At the Government CIO Summit, attendees will follow a personalised agenda designed to maximise their limited time and to effectively meet their business needs and interests. Key note speakers include; Allan Morris, Executive IT Director, Royal Melbourne Institute of Technology; Jerry L Davis, Deputy CIO, NASA; Marie Johnson, Chief Technology Architect, Department of Human Services; Andrew Mills, CIO, Government South Australia; David Johnson, CIO, IP Australia.

Please note that Government CIO Summit is a closed business event.
