

## Instructions

To apply for Intergraph®'s Digital Photogrammetry Education Grant, please complete all fields. The "Summary of Research Objectives" section should contain an overview of research you have already conducted or plan to conduct with Intergraph technology. The "Conclusion" section needs to be completed only if full paper is available. Please e-mail all documents to [education@intergraph.com](mailto:education@intergraph.com).

You can provide a link to up to three screenshots for this catalog entry. Please provide us screenshot image URLs that begin with **http://** or **https://** in .jpg or .gif format. Screenshot image descriptions are limited to 2,000 characters.

Papers can be based on any of the following:

1. Produced prototypes or papers that demonstrate research results, innovative applications, and interesting projects that are based on Intergraph technology.
2. A report on the integration of the Intergraph software into research activities.

\*Primary contact is the person who will be the main researcher incorporating Intergraph technology into the institution's research projects.

\*\* Contract administrator must be a representative of the educational institution with power to legally bind institution to a contract.

\*\*\* Site Technical Contact is the person at the educational institution responsible for internal software administration and support. This person would likely receive shipment of the software.

## Authorized Licensee Personnel

Software support shall be available for up to four (4) authorized licensee personnel. Students are not allowed to call Intergraph Support directly. Please list the four (4) authorized licensee personnel for your institution below:

#### PEP Pricing:

Educational price of an ImageStation or TerraShare software product is five percent (5%) of its corresponding current U.S. List Price in effect at the time the order is received. For information on software pricing, contact [education@intergraph.com](mailto:education@intergraph.com).

Note: First-year maintenance, equal to 20 percent (20%) of the discounted price, is required. If the educational institution wants to continue yearly maintenance after the first year, the maintenance charge is 20 percent (20%) of the discounted software purchase price (i.e., 20% of 5% of U.S. list price at the time of purchase). For example, if the product U.S. list price is \$100, the educational institution would pay five percent, or \$5 for the product. Maintenance would be 20 percent of \$5 or \$1.
