

INTERGRAPH PP&M UK & IRELAND 2011

OCTOBER 26 & 27
LONDON (UK)

Intergraph PP&M UK & Ireland 2011

UK & Ireland User Group Conference

October 27, London

Agenda

Agenda

27 October, Intergraph PP&M UK & Ireland 2011

	Welcome Trust Lecture Hall	
9:00	Registration, Networking and Exhibition	
9:30	Intergraph keynote: Intergraph PP&M business update and outlook for 2012.	Kevin Holmes, Vice President North Western Europe, Intergraph Process Power & Marine
10:00	Customer keynote: Adoption of SmartPlant 3D & SmartPlant Enterprise.	Mike Pye, FLUOR
10:30	Customer Case Study: Summary of Owner Operator experiences with SmartPlant for OO'S and Intergraph's future OO strategy.	Mirko Stock, Intergraph
11:00	Coffee-break, Networking and Exhibition	

Breakout Sessions

TIME	1.Welcome Trust Lecture Hall	2.Conference Room	3.Library Events Room
11:15	EPC use of Smart3D in Offshore & Marine. Terje Orbeck, GRENLAND GROUP	Increasing plant safety, reducing OPEX, improving uptime and reducing CAPEX - unleashing lifecycle value for Owner Operators and Contractors. Mirko Stock, Intergraph	Product update on SmartPlant P&ID, SmartPlant Instrumentation and SmartPlant Electrical. Zur Bar, Intergraph
12:00	Customer presentation: SmartPlant Foundation – Mechanical Datasheets. Mike Burt, Bechtel	Update on SmartPlant Materials. Chris Why, Intergraph	Product update on SmartPlant 3D: what's new in 3D v. 2011. David Whittle, Intergraph
12:45 14:00	Networking Lunch and Exhibition		

Agenda

27 October, Intergraph PP&M UK & Ireland 2011

Breakout Sessions

TIME	1.Welcome Trust Lecture Hall	2.Conference Room	3.Library Events Room
14:00	Customer presentation Improving project execution. Lewis Quinn, Worley Parsons	Capturing the Engineering Information Asset for brownfield facilities with Leica Geosystems. Luke Jarrey, LEICA GEOSYSTEMS and Mirko Stock, Intergraph	Product update on Intergraph's newest addition to the SmartPlant suite of tools: Caesar, PVElite & TANK. Steve Gillott & Chris Bradshaw, Intergraph
14:45	Gaining competitive advantage using SmartPlant 3D automation. Prasad Mantraratnam, Intergraph	Software as a Service (SaaS) and hosting: experiences and forward strategy. Kevin Holmes, Intergraph	Product update on the Information Management SmartPlant solutions including SmartPlant Enterprise, SmartPlant Foundation and SmartPlant Enterprise for Owners Operators. Rick Standish, Intergraph
15:30	Coffee-break, Networking and Exhibition		
16:00	Improving safety and reducing construction costs and schedule with SmartPlant Construction. Chris Why, Intergraph	CADWorx: Intergraph's solution to smaller and less complex projects. Paul Martin, Intergraph	Managing your reference data for SmartPlant 3D using SmartPlant Materials. Ahmet Akin, Intergraph
	Welcome Trust Lecture Hall		
16:45	Intergraph Closing Address	Kevin Holmes, Vice President North Western Europe, Intergraph Process Power & Marine	
17:00 18:00	Reception Drinks and Exhibition		

Intergraph PP&M UK & Ireland 2011

Sponsors

Trimble applies technology to make field and mobile workers in businesses and government significantly more productive.

Solutions are focused on applications requiring position or location—including surveying, construction, agriculture, fleet and asset management, public safety and mapping. In addition to utilizing positioning technologies, such as GPS, lasers and optics, Trimble solutions may include software content specific to the needs of the user.

Wireless technologies are utilized to deliver the solution to the user and to ensure a tight coupling of the field and the back office. Founded in 1978, Trimble is headquartered in Sunnyvale, Calif.

CAXperts provides services to the process, power, and marine industries built around Intergraph's PDS® and SmartPlant® products.

The company's services range from business analysis and process and system architecture to system hosting, implementations, integrations, and customizations.

These services are complemented by content management and project support services. CAXperts is also well known for its standard and customized software solutions, which ensure the highest level of usability with workflow-oriented and efficient solutions.

The expertise of CAXperts has been proven in innumerable projects around the world. The company has offices in Germany, Canada, India, Singapore, and Australia.

Hazid Technologies is a UK based partner of Intergraph Corporation. We deliver a set of solutions and services which leverage SmartPlant P&ID to improve quality, integrity and demonstrable compliance through the life-cycle from design to operations.

SmartPlant P&ID Engineering Integrity provides you with a P&ID technical review capability, to check for compliance with standards and engineering guidelines.

SmartPlant Process Safety enables you to raise the bar on process safety performance through better management of information and knowledge.

SmartPlant Action Management takes away the pain of project managing actions and recommendations. Together, the system enables you to:

- Join up process safety and engineering information and workflows to design in safety and ensure integrity when changes occur.
- Increase efficiency and quality by eliminating information silos and transcription between safety work processes.
- Assimilate and reuse knowledge across the corporation.
- Demonstrate compliance

Legrand, global strength built on local knowledge.

In the UK Legrand has developed a customer focused structure which harnesses the power of its market leading specialist brands to deliver innovative, integrated solutions for every phase of construction. The UK structure is organised into three business divisions:

- Cable management
- Power distribution
- Wiring devices

Cable management... quality assured UK manufacturing
Swifts cable management ranges have been designed and manufactured at our Scarborough (UK) site since the 1960's. And with its own in-house galvanising facility, every product is finished to the highest possible standard following strict quality control guidelines.

- Legrand Electric holds ISO 9001 : 2008 Quality Assessment Registrations from Intertek Systems Certification UK and Bureau Veritas
- All of Legrand's UK manufacturing sites are accredited to ISO 14001 : 2004 Environmental Management System

Process, power and marine project examples

- Tengiz Second Generation - Kazakhstan
- Vesta Wind Turbine Manufacturing Plant - Isle of Wight
- Norilsk Nickel Slag Cleaning Furnaces Upgrade - Siberia
- Ling Au Nuclear Plant - China
- Shell EA and KC upgrades - Nigeria

AceCad Software Company Featured at Intergraph 2011 UK conference will be SmartPlant3D StruCad interoperability, a unique solution for accurate and reliable model share between the Plant Design and Structural Detailing worlds. Achieved through partnership with Intergraph, the capability enables improved workflow processes and structural content collaboration between EPCs, Structural Detailing and Fabrication companies.

StruCad evolution, is a full structural steel detailing and management system, but is also for engineering companies who undertake fabrication and production, across multiple project offices.

StruEngineer evolution, is a StruCad platform product, complimenting use of SmartPlant3D for controlled issue of the Structural model to detailing and fabrication companies.

StruCad delivers world standards to steelwork design and detailing with powerful joint and connection configurations, automated drawing production, project review, global model management, and estimating capability that integrates fully with StruM.I.S for fabrication information management. StruCad forms part of AceCad's solution suite StruPLANT, for the Structural Supply Chain.

StruPLANT structural supply chain solutions are defining a new era for business improvement for creating and managing steel structures in plant industries. The StruPLANT solution uniquely enables engineering, fabrication and construction companies, to design, manage and collaborate effectively to reduce steelwork design, fabrication and construction schedules and costs.
